KUHINJA ELEGANCE LINE/*KITCHEN ELEGANCE LINE* by Matis

PREMIUM QUALITY
MADE IN SERBIA

Nova linija kuhinja odiše dizajnerskom elegancijom i svakodnevnom praktičnošću. Sistem elemenata inspirisan kuhinjama po meri projektovan je tako da maksimalno iskoristi svaki prostor u kome se zatekne. Kombinacijom elemenata se pored tipičnih frontalnih i ugaonih kuhinja, mogu se postići i dve dubine kod visećih kuhinjskih elemenata i dve visine kuhinje, na 220cm i na 255cm - tako da se znatno povećava njen ostavinski prostor. Uveden je novi drveni dekor - halifax hrast koji je rađen u sinkro pore tehnologiji, koja imitira relistične pore i strukturu drveta.

Posebno smo ponosni na našu saradnju sa BLUM-om, koji je jedan od vodećih proizvođača okova i mehanizama u svetu. Svi mehanizmi i šarke BLUM imaju 25-ogodišnju garanciju.

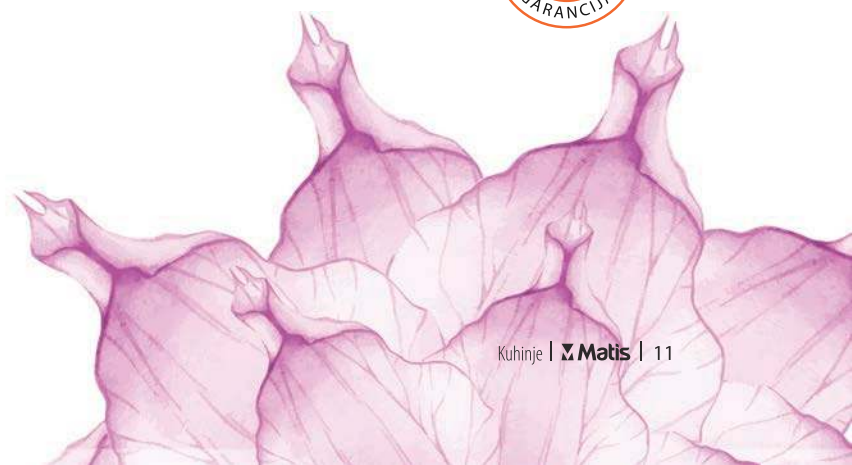

KUHINJA ELEGANCE LINE / KITCHEN ELEGANCE LINE by Matis

PREMIUM QUALITY
MADE IN SERBIA

This new kitchen line fully emphasizes functionality and elegance. The system of elements is inspired by custom-made kitchens and is designed in order to fully utilize all space furnished with these items. Combining all the elements in various ways we are able to create not only typical frontal and corner kitchens, but also double depth upper kitchen elements with double kitchen height (220 cm or 255 cm) allowing a significantly larger storage space. The kitchen is enriched with wooden decor elements that include Halifax oak, made with synchronous pore technology, imitating realistic pores and wood structure.

We are very proud of our cooperation with BLUM company, one of the world leaders in furniture fittings and mechanism manufacturing. All of the mechanisms and fittings Matis uses are products of BLUM and come with a 25-year warranty.

Ručice Rustik

Ručice kod elemenata su izrađene od kombinacije drvo-metal sa kvalitetnom završnom obradom (nije farbana) tako da se ne može desiti da se ručica od upotrebe pohaba i izgrebe. Dimenzija ručica je 160 mm.

Handles Rustic

The Rustic handles are made from a combination of wood and metal and are not dyed, preventing from scratches. The dimension of the handles is 160mm.

Italijanska vakuum tehnologija izrade frontova od medijapana

Vakuum presa predstavlja najnoviju tehnologiju u završnoj obradi površina. Na ovaj način se površine MDF-a prekrivaju visoko-kvalitetnom PVC folijom, što rezultira postizanjem idealno ravnih površina sa mnogo većom otpornošću na habanje.

Italian vacuum technology

Vacuum press is the latest technology when it comes to finishing techniques. This way, MDF surfaces are covered with the highest-quality PVC foil resulting in much higher abrasion and impact resistance.

KLUB STO PEGAZ/CLUB TABLE PEGAZ

dimenzije/dimension: 105 x 55 x 38 cm

Klub sto Pegaz je specifičan po većem delu ploče stola koji možete izvući nagore pomoću podiznog gasnog mehanizma. Ova karakteristika klub stola ga čini pre svega izuzetno praktičnim kada je boravak u dnevnoj sobi u pitanju, jer se tada klasičan klub sto pretvara u podlogu za rad - sa promenom njegove visine. Takođe je pogodan i za obedovanje u dnevnoj sobi, zbog visine koju ploča stola dostiže kada se otvori.

The large portion of the top part can be pulled up with a special mechanism as shown in the photos, making this table unique and very practical especially as it can turn to a working desk or can be used for quick dining.

SPAVAĆE SOBE/*BEDROOMS*

Svaku prostoriju u stanu možete urediti po vašoj zamisli, ne robujući nikakvim strogo nametnutim pravilima. Ovo naročito važi za spavaću sobu koja treba potpuno da se prilagodi vašim potrebama i shvatanju lepog. Sa druge strane, postoje neke smernice ukoliko želite da sobu uredite u nekom od najčešće korišćenih stilova. U okviru tih smernica, možete slobodno eksperimentisati, ali njih treba imati na umu kao olakšicu u traženju pravog rešenja.

You can arrange any room in your home according to your own ideas and style and not be guided by any imposed rules. This specifically applies for bedrooms as they need to be fully adapted to your needs in every aspect. On the other hand, there are some guidelines in one of the most common used styles that can help you when looking for the perfect bedroom solution.

ELEGANCE LINE AP 270/ELEGANCE LINE AP 270

Idealno rešenje koje pomiruje elegantnu dizajnersku formu i maksimalno iskorišćenje prostora. Unutrašnjost plakara je veoma praktično isplanirana i podeljena je na 3 dela. Fioke su postavljene unutar plakara na metalnim teleskopskim klizačima. Delovi za kačenje duže i kraće garderobe poseduju mobilnu garderobnu šipku od poliranog aluminijuma. Treća zona su pomerljive police koje omogućavaju različite kombinacije u rasporedu unutar plakara. Krila plakara se prave od univera u visokom sjaju, debljine 18mm, sa ukrutnim horizontalnim alu-sjaj lajsnama i Hettich kliznim mehanizmom sa soft-close dodatkom. Rukohvati su izrađeni od poliranog aluminijuma u visokom sjaju. Rasveta je opcionala, led lampe se šrafe u plafon plakara i pale se na prekidač koji se dobija uz kupljeni set rasvete. Krila se montiraju u fabrici što garantuje čvrstinu i stabilnost na duže staze. Rade se iz tri dela sa vertikalnim ukrutnim lajsnama čime je sprečeno krivljenje frontova tokom vremena. Zadržali smo provereni sistem nivelacije u 6 tačaka, jedino kod plakara AP 270 se visinski podesava u 8 tačaka zbog njegove dužine. Zadržali smo proverni sistem nivelacije u 6 tačaka, jedino kod plakara AP 270 se visinski podesava u 8 tačaka zbog svoje dužine.

The Elegance line is designed to provide an elegant design that maximizes space usage. The wardrobe interior is practically designed and separated in three parts. Draws are inserted on metal telescopic sliders, and the hanging bars are made from polished aluminium. The third zone consists of adjustable shelves, allowing for a custom combination and space usage within the wardrobe. The wardrobe fronts are made of high gloss refined chipboard with a thickness of 18mm, with stabilizing horizontal alu-glass battens and soft-close Hettich sliding mechanism. The handles of the wardrobe are made from polished aluminium with a high shine. Interior lighting is optional, with LED lamps being inserted into the top of the wardrobe allowing for increased visibility on the inside. The fronts are assembled in the factory, guaranteeing long-term stability and endurance. The fronts are made in three parts with the vertical stabilizing battens preventing the fronts from folding over time. We have preserved the leveling in 6 points, with an exception for the AP270 wardrobe that is leveled in 8 parts for its length dimension.

LAKA NIVELACIJA - Nivelacija poda ormara na 6 tačaka
Ispod poda ormara je ugrađeno 6 nogarića za lako besprekorno nivelisanje poda ormara. To je važno jer se u toku eksploatacije vrata veoma lako i beščujno otvaraju, a uz pomoć ugrađenog Slow-Motion mehanizma, veoma lako i usporeno zatvaraju.

EASY LEVELING - Leveling the closet floor on 6 points
Below the wardrobe floor legs for easy leveling are installed. This is important for easy and silent door opening, and with the integrated Slow-Motion mechanism, very easy and slow closing.

NOVI MEHANIZAM - Bez problema i buke

Proizvođač mehanizma je unapredio sistem gornjih točkica. Umesto jednog većeg, sada postoje dva koja se rotiraju nezavisno jedan od drugog svaki na svoju površinu naleganja, pa u slučaju i da je šina malo deformisana, oni omogućavaju nesmetano kretanje vrata.

NEW MECHANISM - Without problem or noise

The mechanism manufacturer has improved the system of the upper wheels by putting two wheels that rotate independently instead of one wheel, removing any possible sliding problem.

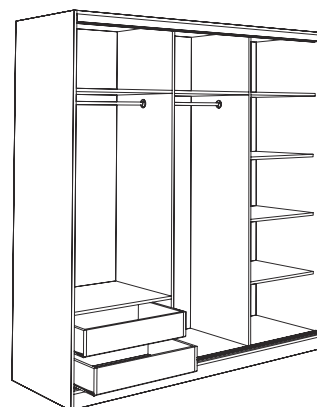

LAKA NIVELACIJA - Nivelacija poda ormara na 6 nogara

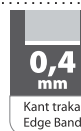

Ispod poda ormara je ugrađeno 6 nogarića za lako besprekorno nivelisanje poda ormara. To je važno jer se u toku eksploatacije vrata veoma lako i bešujno otvaraju, a uz pomoć ugrađenog SlowMotion mehanizma, veoma lako i usporeno zatvaraju.

Easy leveling - leveling the wardrobe with 6 legs

There are 6 legs below the wardrobe enabling perfect leveling and making door sliding almost completely silent. As well, by integrating the slow-motion mechanism, easy and smooth door closing is achieved.

GARDEROBERI FORTUNA SOFT / WARDROBES FORTUNA SOFT

NOVI MEHANIZAM

Uveden je novi mehanizam od nemačkog proizvođača Hettich. Ovaj sistem znatno ubrzava montažu vrata jer se veći točkić samo jednim potezom pozicionira na šinu. Osim toga, bez ikakvog šrafljenja, prilikom ispadanja klizača iz šine, korisnik može sam da vrati klizač na postojeću šinu.

NEW MECHANISM

In this product, we have implemented a new mechanism by German producer Hettich. This system is significantly improving door assembling efficiency as the wheel is on the sliding rail with one single step. Another great advantage is that even in the case of an eventual de-rail, the user can easily put the wheel back on the rail.

EKSCENTAR VEZA - Veliki broj sklapanja i rasklapanja

Daje čvrstinu i stabilnost plakarima, kao i dodatnu sigurnost ukoliko se morate često seliti.

EXCENTER JOINT - High number of assembling and disassembling

Provides wardrobe firmness and stability as well as the additional safety if you are on the move frequently.

100 % UKLOPIVOST U SVE PROSTORE

Veliki broj elemenata različitih širina Vam omogućava slobodu da kreirate svoju idealnu kombinaciju, kao što je to slučaj sa plakarima izrađenim po meri.

DESIGN TO FIT IN ANY SPACE

A great number of elements made in various widths provide creative freedom for customers just as is the case with the custom-made wardrobes.

PREKLOPNA VRATA - Ušteda prostora!

Veoma praktična kada imate manjak prostora, otvoreno krilo fronta zauzima maksimalno 25 cm.

FOLDING DOORS- SPACE SAVING!

If your room is of a smaller size, this will be the best solution as the opened front door occupies a maximum 25cm.

MASIVNE FIOKE!

Male fioke su uvek slaba tačka kod gotovih plakara, mi smo ovu slabost otklonili velikim fiokama - dimenzija 75 x 14 cm!

MASSIVE DRAWERS

Small drawers are always a wardrobes weak point, therefore with this model we have created 75x14cm big drawers.

MATIS SPECIJALNA POGODNOST!

Ugao fortuna element, izdvaja se od ostalih na tržištu, svojom praktičnošću, stabilnošću i cenom! Eliminirate slepe uglove u vašem stanu, iskoristite svaki milimetar i uklapajte bez ograničenja!

THE FORTUNA WAY

What makes this product special is that it "eliminates blind corners" in your living space using every millimeter of space available.

DOKAZAN KVALITET - Nemački mehanizam sa aluminijumskim vodičama

Inovacija u upotrebi kliznih mehanizama. Jednim laganim klikom vraćate plakov u ležište, a da pritom ne brinete o dodatnom održavanju.

PROVEN QUALITY - German mechanism with aluminium rails

Innovation in sliding mechanisms. With one single step, wheel can be put back on the rail.

KREVETI OD PUNOD DRVETA BUKVE/SOLID WOOD BEDS

Savremen način i ubrzan tempo života opterećen stresom, ostavlja nam sve manje vremena za odmor, što ozbiljno ugrožava naše zdravlje. Zdrav san i odmor postali su bitni faktori poboljšanja kvaliteta života. Istovremeno, savremeni trendovi potrošačkog društva i sve veća potreba za dodatnim prostorom za odlaganje stvari, uslovljavaju da životno okruženje moramo opremiti maksimalno funkcionalno. Dugogodišnjim iskustvom u proizvodnji nameštaja i osluškivanjem želja i potreba kupaca, pokušali smo da napravimo više modela kreveta visokog kvaliteta i estetike. Koliko smo u tome uspjeli prosudite sami.

The modern pace of life leaves little time for relaxation, which apart from being an inconvenience, has detrimental effects on our health. A healthy sleep is therefore crucial to our wellbeing and an improved quality of life. At the same time, consumers are increasingly searching for more and more storage space, forcing us to work even harder in our quest to maximize space and produce functional items. With many years of experience in designing furniture to meet our clients need, we have worked hard to make various pieces to meet every taste and requirement while maintain the highest quality and attention to detail. Our success will be measured by you.

PREMIUM QUALITY
MADE IN SERBIA

Opšte karakteristike kreveta od punog drveta

General characteristics of solid wood beds

Proverite KVALITET FARBANJA

Kompletno automatizovana linija za farbanje i sušenje elemenata

Automatizovanje linije za farbanje osim velike produktivnosti donose kontinualan i visok nivo kvaliteta tretiranih elemenata.

CHECK OUR PAINTING SYSTEM

Completely automatized line for painting and drying elements

The automatization of our wood painting and drying line has not only led to higher productivity but has at the same time insured a continuous high-quality finish of treated elements.

Čvrsta VEZA

Metalni sistem spajanja stranica kreveta

Za razliku od sličnih proizvoda na tržištu, kod kojih se spajanje stranica kreveta vrši vijcima za drvo bez tiplova, naši kreveti imaju sigurne, posebno dizajnirane, skrivene metalne spojnice renomiranog italijanskog proizvođača, što uz drvene tiplove omogućava čvrst spoj i dugogodišnju stabilnost.

Strong CONNECTION

Bed side connecting elements

Unlike other products on the market, where the connecting of bed side is done with bolts without an anchor, our beds encompass rigid, specifically designed and hidden metal connectors made by a renowned Italian producer, that enable a strong and stiff fit.

Elastična i sigurna PODLOGA

Pod kreveta

Podloge od šperploče daju ravnu i stabilnu osnovu za dušek čime se obezbeđuje njegovo ravnomerno opterećenje. Time je omogućen zdrav i pravilan položaj kičmenog stuba i celog tela tokom odmora i sna. Razmaci između letvica omogućavaju dobru cirkulaciju vazduha oko duška i njegovo provetravanje.

Well LINED

Under bed support

Lath floor of the bed gives a flat and stabile base for the mattress, thus providing its even loading. This enables a healthy and correct position of the spinal column and the whole body during rest and sleep. The spaces between the laths allow good air circulation around the mattress and its ventilation.

Siguran OSOLONAC

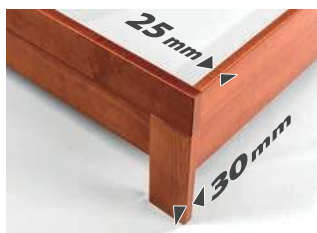

Savršena podloga za svaki dušek

Na srednju potpornu letvu kreveta, na koju su vezane letvice, montirana su dva nogara za podešavanje visine, tako da se vrlo jednostavno i lako može dobiti savršeno ravna podloga za dušek, bez obzira na eventualne nedostatke poda na kome se krevet nalazi.

Strong SUPPORT

Perfect support for every mattress

On the central support beam, on which the laths are attached, we have mounted two legs which enable height adjusting. With them, you are able to easily flatten the mattress, regardless on the unevenness of the floor.

Život sa PRIRODOM

Srednji metalni oslonac za potpurnu gredu

Kreveti pravljani od punog bukavog drveta, osim što unose toplinu prirodnih materijala u vaš dom, postojani su i dugovečni. Bočne stranice izrađuju se od 25 mm, a čelne strane i nogari od 30 mm debljine drvenih ploča što daje posebnu stabilnost i čvrstinu.

WOODY SOFT LUX

KREKET OD PUNOD DRVETA BUKVE/ BEECH SOLID WOOD BEDS

Krevet Woody Soft LUX, dodir modernog dizajna u skladu sa funkcijom i zagarantovanim kvalitetom. Tapacirano uzglavlje bračnog kreveta od punog bukovog drveta Soft LUX, kompletira krug komfora u vašoj spavaćoj sobi. Visokokvalitetni mebl štof, rezistentan na habanje i cepanje dostupan u tri dezena. Bračni krevet od punog bukovog drveta sa hermetički zatvorenom kutijom za posteljenu. Metalni sistem spajanja stranica kreveta. Naši kreveti od drveta, imaju skrivena metalna ojačanja u vidu spojnice, što u kombinaciji sa tiplovima čini neraskidivu vezu i garantuje dugogodišnju stabilnost. Kao podlogu za dušek izabrali smo Latoflex. Metalni ram sa blago pomerljivim zglobnim nosačima letvica proizvodi efekat tzv. plutajuće podloge. Jednim blagim pokretom na gore podižete Latoflex, postavljen na podiznim gasnim amortizerima i sa lakoćom pristupate velikom prostoru za odlaganje.

The Woody Soft LUX bed is of a high-quality with a touch of modern design. The upholstered headboard completes your bedroom and is also wear and tear resistant. It is available in three different designs. The bed storage box is hermetically sealed. Our solid wood beds include hidden metal reinforcements in the form of coupling, and this along with the anchors makes an unbreakable bond and guarantees long term stability. We have selected Latoflex as a mattress base and the metal frame with movable laths produces the effect of so-called floating ground. Latoflex is positioned on the lifting gas shock absorber and so can be easily lifted up, providing huge storage space.

SIGURNOST

Središnji oslonac osim što ukrućuje krevet, koristan je i zbog bolje organizacije prostora u kutiji za odlaganje.

SAFETY

The central support, apart from strengthening the bed, is useful for providing a better organization of the space in the storage box.

ZAOKLJENE IVICE

Sasvim zaslužen i s ponosom, ovaj model kreveta nosi ime SOFT. Primenom softverskih 3D paketa za projektovanje, a potom izradom na kompjuterski upravljanim obradnim centrima i preciznom završnom obradom, osmišljen je krevet na kome su sve ivice zaobljene što, osim izražene estetike, donosi i jednu potpuno novu dimenziju komfora.

CURVED EDGES

The name is derived from the feeling – SOFT. With the application of a 3D design software and computer-controlled machines with precise finishing, we have designed a bed of which all edges are rounded bringing entirely a new dimension of comfort next to its appealing aesthetics.

NEĆUJNO I LAGANO - Do posteljine bez muke i buke

Najsavremeniji mehanizam za podizanje i spuštanje platforme sa dušekom, u koji su ugrađena dva amortizera jačine 750 N, omogućavaju jednostavan pristup prostoru za odlaganje posteljine. Sasvim nećujno i lagano, bez buke i napora.

SILENT AND LIGHTWEIGHT

Reach your bedding easily and without any noise

We have integrated the latest technology mechanisms for lifting up and down the mattress platform which has two shock absorbers with a combined strength of 750 N, allowing easy access to the box storage without any noise.

ŠTITI I ŠTEDI - Dvostruka vrednost prostora za posteljину
 Prostor predviđen za odlaganje posteljine hermetički je zatvoren i onemogućava upadanje prašine. Ovaj prostor, takođe i šteti prostor u spavaćoj sobi, jer vam za odlaganje posteljine nisu potrebne dodatne komode, a soba će uvek biti sređena i uredna.

PROTECTS AND SAVES - Double space for bedding

PROTECTS AND SAVES - Double space for bedding
The space provided for storage of bedding is closed hermetically, preventing the intrusion of dust. This space also saves the space in the bedroom itself, because there is no need for additional cabinets. The room will always be tidy and neat.

ČVRSTA VEZA - Metalni sistem spajanja stranica kreveta

Za razliku od sličnih proizvoda na tržištu, kod kojih se spajanje stranica kreveta vrši vijcima za drvo bez tiplova, naši kreveti imaju sigurne, posebno dizajnirane, skrivene metalne spojnice renomiranog italijanskog proizvođača, što uz drvene tiplove omogućava čvrst spoj i dugoročniju stabilnost.

STRONG CONNECTION - Bed side connecting elements

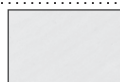

Unlike other products on the market, where the connecting of bed side is done with bolts without an anchor, our beds encompass rigid, specifically designed and hidden metal connectors made by a renowned Italian producer, that enable a strong and stiff fit.

Ispod KREVETA - Lako dostupno i uvek čisto

Kako bi spavaća soba bila mesto zdravog odmora, veoma je važna mogućnost lakog čišćenja. Zato posebno ističemo da su svi WOODY kreveti nogarima odignuti od poda, koji je tako dostupan za održavanje.

DEČIJA SOBA NUMERO/*CHILDREN ROOM NUMERO*

Jedan od najvažnijih elemenata u odrastanju svakog deteta predstavlja i životni prostor u kome ono provodi vreme. Bitno je da ovaj prostor odgovara njegovim godinama i potrebama, ali i da oslikava detetovu ličnost na što bolji način i zadovoljava svu njegovu znatiželju, kao i potrebu za funkcionalnošću, koja je svakom mališanu potrebna.

One of the most important elements of growing up is the space in which a child spends time. It is important that this space corresponds to his/her age and needs, but also to reflect the child's personality in the best way and satisfy all his/her curiosities as well as being functional.

Svedeniji, ali istovremeno i originalan dizajn, maksimalno je podržan funkcijom i praktičnošću.

We bring you a new room design particularly aimed at teenagers. In this design we choose neutral but elegant wood design as a base to allow a more vibrant choice of colors. A simplistic design full of originality, while maintaining maximum functionality and practicality.
